Abstract:

FR 1566388 A

An adhesive composition consisting of 5% to 80% of atactic polypropylene, 10% to 50% of a diene petroleum resin, 5% to 25% of a mineral oil or soft resin as plasticiser and 2% to 5% of olein, in an organic solvent.

Excellent adhesion and water resistance.

Adhesives for paper, cardboard, plastic film, metal, wood, ceramics, cork; use in industrial paints and varnishes.

The atactic polypropylene is used in solution or as an emulsion, and may be mixed with vinylic polymers or copolymers; the adhesive may be mixed with other adhesive products such as dextrin, casein, vinylic or acrylic resins. Solvents may be hydrocarbons, ketones or trichlorethylene.
